

Peel Away Ads

Beats Pop-Ups by over 78%

This is an absolutely cool (and I hate that word) way to get your visitors attention - without the perceived aggravation of a pop-up!

I first saw this effect at a hosting site; thought how much I wished I had software to do THAT! I never thought I would be able to justify the expense of such a complex script.

However, within a few days, there it was. Harris Fellman and Richard Osterude just released Peel Away Ads, an advertising script that used to be available to deep pocket customers only. At just \$37 \$27 you can't lose. It's got a 60 day money back guarantee anyway.

You need to try Peel Away Ads. Check it out now.
